Summary

Executive Summary

Key Performance Indicators (KPIs)

The dashboard tracks **six core KPIs** that together provide a complete picture of business performance:

KPI	Value	What It Measures
Total Revenue	R 698,812	Sum of all sales: `unit_price × transaction_qty` across all transactions
Total Orders	149,116	Count of unique transactions (distinct `transaction_id`)
Total Units Sold	214,470	Sum of `transaction_qty` — total individual items sold
Avg Order Value	R 4.69	Revenue divided by total orders — average spend per transaction
Total Products	80	Count of distinct `product_id` values across 9 categories
Total Stores	3	Count of distinct store locations (Hell's Kitchen, Astoria, Lower Manhattan)

Available Filters

The dashboard includes **five key filters** on the Sales Performance page. All filters are multi-select and affect every widget simultaneously:

Filter	Field	Description
Date Range	`transaction_date`	Select a start and end date to limit data to a specific period
Product Category	`product_category`	Filter by high-level category (Coffee, Tea, Bakery, etc.)
Product Type	`product_type`	Filter by sub-category within a category (e.g., Latte, Espresso)
Store Location	`store_location`	Filter by specific store (Hell's Kitchen, Astoria, Lower Manhattan)
Product Detail	`product_detail`	Filter by specific product name (e.g., "Dark Chocolate Lg")

Charts on the Sales Performance Page

All charts are styled in the dashboard's pink theme and respond to every filter:

Revenue Charts

- **Total Revenue by Month (line)** — monthly revenue trend showing 104% growth from Jan to Jun 2023
- **Daily Revenue Trend (line)** — day-by-day revenue with a separate line for each store location
- **Revenu by Product Category (pie)** — revenue split across the 9 product categories
- **Total Revenue by Store Location (bar)** — revenue distribution across the 3 stores
- **Revenue: Weekday vs Weekend by Month (grouped bars)** — weekday vs weekend revenue for each month
- **Top 10 Products: Revenue vs Units Sold (dual-axis horizontal bars)** — the 10 highest-revenue products, each shown with revenue and units sold on two independent scales

Volume Charts

- **Revenue by Day of Week (bar)** — order volume per day, ordered Monday through Sunday to reveal weekly patterns
- **Product Sales Summary (table)** — product × category × store breakdown with revenue, units, and orders

---

Measured Values Covered

Revenue Metrics

- **Total Revenue** — overall sales revenue across the full period
- **Revenue by Month** — monthly trend showing 104% growth from Jan to Jun 2023
- **Daily Revenue Trend** — day-by-day revenue, split by store location
- **Revenue by Product Category** — breakdown across 9 categories
- **Revenue by Store Location** — distribution across 3 stores
- **Weekday vs Weekend Revenue** — monthly weekday/weekend comparison
- **Top 10 Products by Revenue** — highest-earning individual products

Volume Metrics

- **Total Orders** — transaction count
- **Total Units Sold** — individual items sold
- **Order Performance by Day of Week** — busiest and slowest days (ordered Mon–Sun)
- **Top 10 Products by Units Sold** — shown alongside revenue in the combined Top 10 chart

Derived Metrics

- **Average Order Value** — revenue per transaction

Key Findings

Revenue Growth

- Revenue **doubled** from R 81,678 in January to R 166,486 in June — a **104% increase** over 6 months
- Strongest month-over-month growth occurred in March (+30%) and May (+32%)

Category Performance

- **Coffee** dominates at R 269,952 (**38.6%** of total revenue)
- **Tea** follows at R 196,406 (**28.1%**)
- Together, Coffee and Tea account for **66.7%** of all sales
- **Underperformers:** Packaged Chocolate (R 4,408) and Flavours (R 8,409) contribute less than 2% combined

Regional Distribution

- Sales are **evenly distributed** across all three stores:
  - Hell's Kitchen: R 236,511 (33.8%)
  - Astoria: R 232,244 (33.2%)
  - Lower Manhattan: R 230,057 (32.9%)

Top Products

- **By Revenue:** Sustainably Grown Organic Lg (R 21,552), Dark Chocolate Lg (R 21,006), Latte Rg (R 19,112)
- **By Volume:** Earl Grey Rg (4,708 units), Dark Chocolate Lg (4,668 units), Morning Sunrise Chai Rg (4,643 units)
- Large-size drinks generate more revenue per unit; regular-size drives volume

Order Patterns

- **Busiest day:** Friday (21,701 orders)
- **Slowest day:** Saturday (20,510 orders)
- Weekday volume consistently exceeds weekends by ~3%

Recommendations

1. **Leverage Coffee & Tea dominance** — ensure consistent stock and quality for these primary revenue drivers
2. **Investigate underperforming categories** — Packaged Chocolate and Flavours may benefit from promotions or menu review
3. **Capitalise on weekend gap** — Saturday's lower volume suggests opportunity for weekend promotions or loyalty incentives
4. **Maintain balanced store performance** — share best practices across all three locations
5. **Monitor growth trajectory** — track the 104% revenue growth monthly to identify seasonal patterns
