PROJECT MANAGEMENT PLAN

PROJECT OVERVIEW

- Project name: Brightlearn Coffee Shop
- Start date: 28 Sep
- End date: 25 Oct

GOALS

- Complete data cleaning for analysis
- Perform exploratory data analysis (EDA)
- Create meaningful visualisations and insights using Python and/or SQL
- Upload all work to Github

DATA & TOOLS

- Databricks SQL)
- Excel
- Figma
- Canva
- Github
- Python

Key insights to deliver:

Product

- Sales by product category
- Top-performing products
- Product contribution to revenue

Time

- Sales by date and day of week
- Peak sales times
- Sales by time bucket

Sales performance

- Total units sold
- Total revenue generated
- Revenue by product and time period

Project Timeline

Gantt Chart
